National Alcohol Screening Day® (NASD) is an annual event that provides information about alcohol and health as well as free, anonymous screening for alcohol use problems. Event sites are located in community, college, primary health care, military and employment settings. The program is designed to provide outreach, screening and education about alcohol's effects on health for the general public. As part of the program, attendees have the opportunity to complete a written questionnaire evaluating their alcohol use and talk privately with a health professional about their results and next steps.

This is a FREE ANNUAL SMOKE FREE EVENT
Sponsored by members of COMMUNITY PARTNERS 4 RECOVERY
